

SuperScienceMe: REsearch is your R-Evolution

European Researchers' Night

SuperScienceMe is a dip into the knowledge in search of scientific and cultural wonders

The aims to reach the general public, mainly younger crowds, in Calabria and Basilicata and acquaint them with scientific research. The project is proposing a fascinating journey across several epochs of human evolution and science, conveying a crucial message: that research represents an intrinsic characteristic of mankind, being, for this reason, free of any barrier and stereotype.

Like human imagination, research cannot be confined or limited.
