

# Towards advanced BiCMOS nanotechnology platforms for RF to THz applications

*Breaking the technological barriers to the development of the next BiCMOS technology platforms*

**Call reference:** ECSEL joint undertaking

**Project Coordinator:** ST Microelectronics

**Start date:** 04/01/2017

**Duration in months:** 36 months

**EU funding:** € 12M

**UNICAL working group:** G. Amendola, E. Arnieri, L. Boccia, D. Calzona, F. Greco

**Main industrial partners:** ST M, SIAE, Nokia, Infineon, IHP, Micram, XMOD

**ECSEL JU**
